DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11 and 33-37, drawn to a reservation communication device, classified in class 705, subclass 5.
 - II. Claims 12-25 and 38-47, drawn to customer communication device, classified in class 705, subclass 5.
 - III. Claims 26-32 and 48-57, drawn to a business communication device, classified in class 705, subclass 5.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as utilizing a reservation communication system in a reservation and navigation system that receives reservation information on available goods and services and organizes the reservation information according to predetermined considerations. Moreover, in the instant case, invention III has separate utility such as using the business communication device to transmit reservation and location information to any type of reservation and navigation system. See MPEP § 806.05(d).

Art Unit: 3626

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and Group III and the search required for Group II is not required for Group I and Group III, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Vincent Gnoffo on 5/31/2002 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
